PROFESSIONAL SUMMARY

Business Development professional in retail media. Finds **new revenue streams** for the company — new retail channels, new partners — builds the business case for each one, then manages the project until it is delivered. Currently working on **3–4 new channel deals** and running **4 live rollouts** as project manager. Google AI certified; Certified Professional Data Analyst.

WORK EXPERIENCE

Mar 2026 – Present

Actmedia - Senior Business Development

- Found **3–4 new channel opportunities** with Modern Trade retailers, now in active discussion — from first contact to partnership structure and negotiation.
- Project-manage **4 live rollouts** across retailer, supplier and internal teams. The largest — a nationwide in-store screen installation — is about **two-thirds complete** and on track to the contract.
- Fixed a mid-project **supplier price increase** by renegotiating and finding a new source, so installation kept moving and the budget held.
- Build the financial models and forecasts for the annual business plan, comparing partnership options — revenue share, profit share, minimum guarantee — to decide our position before each deal.
- Review new media and **AI tools** for the shopper media portfolio and turn them into offers the sales team can sell. Also run the internal **Salesforce CRM** rollout.

May 2024 – Mar 2026

Casetify - Brand Representative

- Met my personal **THB 1.1M monthly** sales target as the normal standard, while keeping the whole team's numbers steady.
- Key person running the store on shift — floor process, service standards, escalations, and coaching junior staff on how to close.
- Used store data (**9.7K daily visitors, 99.7 avg daily transactions, THB 3.42K average basket**) to plan floor tactics, staffing and peak-hour cover.

Aug 2023 – Dec 2023

MMB Technology Co., Ltd. - Sales Coordinator

- Handled the paperwork between the sales team and clients — quotations, purchase orders, delivery notes — and followed up on orders, payments and delivery dates.
- Kept customer and pipeline records in the **CRM**, booked client meetings and prepared sales materials for the team.

May 2021 – Dec 2022

A Bun Dance (Craft Burger) - Founder

- Founded and ran a student-targeted craft burger shop for **20 months** — product and R&D, pricing, marketing, cost control, staff and customer experience.
- Managed **6–8 part-time staff** on rotating shifts — scheduling, training and daily service standards.
- Held gross profit at **~35% per unit** through recipe costing, ingredient sourcing and portion control.
- Got customers through university networks, the student union and café partnerships — a local channel with **no paid media**.

SKILLS

----------------------------	--

CERTIFICATIONS & ACHIEVEMENTS

- **Google AI Professional Certificate** — Feb 2026
- **Certified Professional Data Analyst** — DataRockie Data Science Bootcamp (6 months, 100 hours), 2024
- **KATALYST Startup Launchpad 2022** — **final 30 of 500 teams** (Tripedia, see Personal Projects)
- **Supervisor Volunteer** — Techsauce Global Summit 2023

PERSONAL PROJECTS

Tripedia — travel-tech startup idea

Co-founder · KATALYST Startup Launchpad 2022 · **final 30 of 500 teams**

- The problem: planning a trip meant jumping between many apps and sites. Pitched one platform that plans the whole trip in one place.
- Sized the market (TAM-SAM-SOM), tested a subscription revenue model plus a margin share from travel partners, and forecast the costs.

GoNai — AI trip planner (Tripedia, built)

Solo build · live web app · gonai-three.vercel.app

- Came back to the Tripedia idea four years later and built it alone with AI tools — a one-day trip planner with an AI chat, from idea to a live site.
- Also served as a hands-on test of the AI tools reviewed at work, on a real product.

Talatify — fresh-market delivery platform

Co-founder · pitched at TEP startup screening round, 2025

- Pitched a delivery platform that brings fresh produce from local wet markets straight to restaurants and cafés — vendors sell online, kitchens skip the morning market run.
- Sized the market (**TAM-SAM-SOM, SOM THB 37M**), set out **5 revenue streams**, mapped the competitors, and made a first-year financial plan and a clickable prototype.
